- **First-quarter 2023 operating margin of 18.5%, compared with 2022 operating margin of 16.2%; Adjusted operating margin of 20.8%, up 290 basis points compared with 2022 adjusted operating margin of 17.9%**
- **Raising full-year 2023 reported revenue growth outlook to 11.5% to 13.5% and full-year 2023 organic revenue growth outlook to a range of 5.5% to 7.5%**
- **Raising full-year 2023 EPS outlook to a range of \$5.95 to \$6.15 and adjusted EPS outlook to a range of \$6.55 to \$6.75 (+9.3% to +12.7% vs. prior year)**

DUBLIN--(BUSINESS WIRE)-- Allegion plc (NYSE: ALLE), a leading global provider of security products and solutions, today reported first-quarter 2023 net revenues of \$923.0 million and net earnings of \$123.5 million, or \$1.40 per share. Excluding charges related to restructuring, acquisition and integration costs, and amortization expense related to acquired intangible assets, adjusted net earnings were \$139.5 million, or \$1.58 per share, up 39.8% when compared with first-quarter 2022 adjusted EPS of \$1.13. All comparisons in this release are with the first quarter of fiscal year 2022 unless otherwise stated.

First-quarter 2023 net revenues increased 27.6% when compared to the prior-year period. Excluding impacts of acquisitions, divestitures and foreign currency movements, net revenues increased 15% on an organic basis. The organic revenue increase was driven by price realization across the portfolio to address ongoing inflationary pressure along with strong volume in the Americas non-residential business offsetting weakness experienced in Americas residential mechanical and certain International businesses. Foreign currency exchange rate headwinds continued with more than an \$11 million impact on reported revenues.

“Our first-quarter results reflect strong execution company-wide and a great start for Allegion in 2023,” said John H. Stone, Allegion president and CEO. “We are seeing resilience in our Americas non-residential business coupled with continued growth in electronics, where demand remains elevated.”

The Americas segment revenues increased 42% (up 22.6% on an organic basis). The organic increase was driven by price realization across all businesses and strong volume growth in the non-residential business. The Access Technologies acquisition contributed \$103.1 million or nearly 20% to total Americas growth. The non-residential business grew nearly 30%, excluding Access Technologies, and the residential business grew mid-single digit percent. Electronics growth exceeded 30% in the quarter, with strength across both residential and non-residential markets.

The International segment revenues declined 9.7% (down 4.8% on an organic basis). Soft end markets, especially in our Global Portable Security business, resulted in lower volumes, partially offset by strong electronic solutions growth and positive price realization. The reported revenue reflects the negative impact of foreign currency. As of Jan. 1, 2023, the Americas portion of the Global Portable Security business is reflected within the International segment, and 2022 full-year and quarterly results have been recast to align with the new reporting structure. The amount recast for first-quarter 2022 was approximately \$6 million in net revenue.

First-quarter 2023 operating income was \$171.0 million, an increase of \$54.0 million or 46.2% compared to 2022. Adjusted operating income in first-quarter 2023 was \$192.4 million, an increase of \$63.0 million or 48.7% compared to 2022.

First-quarter 2023 operating margin was 18.5%, compared with 16.2% in 2022. The adjusted operating margin in first-quarter 2023 was 20.8%, compared with 17.9% in 2022. The 290-basis-point increase in adjusted operating margin is attributable to positive price and productivity net of inflation and investments; positive business mix; and volume leverage associated with non-residential growth in the Americas segment. These increases were partially offset by the dilutive impact of the Access Technologies acquisition and foreign currency pressure.

Additional Items

Interest expense for first-quarter 2023 was \$23.6 million, an increase from \$11.9 million in 2022. This was driven by increased debt as a result of the Access Technologies acquisition along with an increase in variable interest rates.

Other income net for first-quarter 2023 was \$0.3 million, compared to other income net of \$2.2 million in 2022.

The company's effective tax rate for first-quarter 2023 was 16.3%, compared with 13.2% in 2022. The company's adjusted effective tax rate for first-quarter

2023 was 17.4%, compared with 14.6% in 2022.

Cash Flow and Liquidity

Year-to-date available cash flow for 2023 was \$46.7 million, an increase of \$34.9 million versus the prior-year period. The year-over-year increase in available cash flow is due to increased year-to-date net earnings and lower cash used for net working capital, partially offset by higher capital expenditures. The company ended first-quarter 2023 with cash and cash equivalents of \$292.8 million, as well as total debt of \$2,121.9 million.

Updated 2023 Outlook

The company is raising its full-year 2023 revenue growth outlook and expects it to be 11.5% to 13.5%, while also increasing its organic revenue growth outlook and expects it to be 5.5% to 7.5%, excluding the expected impacts of acquisitions, divestitures and foreign currency movements. The increase in the organic outlook is driven primarily by strength in the Americas segment.

The company is revising its full-year 2023 reported EPS outlook and expects it to be in the \$5.95 to \$6.15 range, with adjusted EPS expected to be between \$6.55 to \$6.75.

Adjustments to 2023 EPS include estimated impacts of approximately \$0.40 per share for acquisition-related amortization, as well as \$0.20 per share for restructuring, M&A and amortization expense related to acquired backlog (approximately \$9 million pre-tax).

The outlook assumes approximately a \$0.29 headwind for interest and other income, a full-year adjusted effective tax rate of approximately 15% to 15.5% and an average diluted share count for the full year of approximately 88.3 million shares.

The company increases expectations for full-year 2023 available cash flow to approximately \$480 to \$500 million.

"We are confident in our team's performance," Stone added. "Allegion is positioned well to execute our increased 2023 outlook and our long-term growth strategy."

Conference Call Information

Non-GAAP Measures

This news release also includes adjusted non-GAAP financial information which should be considered supplemental to, not a substitute for or superior to, the financial measure calculated in accordance with GAAP. The company presents operating income, operating margin, net earnings and diluted earnings per share (EPS) on both a U.S. GAAP basis and on an adjusted (non-GAAP) basis, revenue growth on a U.S. GAAP basis and organic revenue growth on a non-GAAP basis, EBITDA, adjusted EBITDA and adjusted EBITDA margin (all non-GAAP measures) and Available Cash Flow ("ACF", a non-GAAP measure). The company presents these non-GAAP measures because management believes they provide useful perspective of the company's underlying business results and trends and a more comparable measure of period-over-period results. These measures are also used to evaluate senior management and are a factor in determining at-risk compensation. Investors should not consider non-GAAP measures as alternatives to the related U.S. GAAP measures. Further information about the adjusted non-GAAP financial tables is attached to this news release.

Forward-Looking Statements

This press release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, and Section 21E of the Securities Exchange Act of 1934, including, but not limited to, statements under the heading "Updated 2023 Outlook," and statements regarding supply chain constraints, electronic component shortages, the company's 2023 financial performance, the company's business plans and strategy, the company's growth strategy, the company's capital allocation strategy, tax rate and the global tax environment, competition, the company's ability to successfully complete and integrate acquisitions and achieve anticipated strategic and financial benefits, and the performance of the markets in which the company operates. These forward-looking statements generally are identified by the words "believe," "aim," "project," "expect," "anticipate," "project," "estimate," "forecast," "outlook," "intend," "strategy," "future," "opportunity," "plan," "may," "should," "will," "would," "will be," "will

continue,” “will likely result” or the negative thereof or variations thereon or similar expressions generally intended to identify forward-looking statements. Forward-looking statements may relate to such matters as projections of revenue, margins, expenses, tax rate and provisions, earnings, cash flows, benefit obligations, dividends, share purchases or other financial items; any statements of the plans, strategies and objectives of management for future operations, including those relating to any statements concerning expected development, performance or market share relating to our products and services; any statements regarding future economic conditions or our performance; any statements regarding pending investigations, claims or disputes; any statements of expectation or belief; and any statements of assumptions underlying any of the foregoing. Undue reliance should not be placed on any forward-looking statements, as these statements are based on the company's currently available information and our current assumptions, expectations and projections about future events. They are subject to future events, risks and uncertainties - many of which are beyond the company's control - as well as potentially inaccurate assumptions, that could cause actual results to differ materially from those in the forward-looking statements. Important factors and other risks that may affect the company's business or that could cause actual results to differ materially are included in filings the company makes with the Securities and Exchange Commission from time to time, including its Annual Report on Form 10-K and its Quarterly Reports on Form 10-Q and in its other SEC filings. All forward-looking statements in this press release are expressly qualified by such cautionary statements and by reference to the underlying assumptions. The company undertakes no obligation to update these forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

ALLEGION PLC

SCHEDULE 2

The Company presents operating income, operating margin, net earnings and diluted earnings per share (EPS) on both a U.S. GAAP basis and on an adjusted (non-GAAP) basis, revenue growth on a U.S. GAAP basis and organic revenue growth on a non-GAAP basis, EBITDA, adjusted EBITDA and adjusted EBITDA margin (all non-GAAP measures), and available cash flow ("ACF", a non-GAAP measure). The Company presents these non-GAAP measures because management believes they provide useful perspective of the Company's underlying business results and trends and a more comparable measure of period-over-period results. These measures are also used to evaluate senior management and are a factor in determining at-risk compensation. Investors should not consider non-GAAP measures as alternatives to the related U.S. GAAP measures.

The Company defines the presented non-GAAP measures as follows:

- Adjustments to operating income, operating margin, net earnings, EPS and EBITDA include items such as goodwill, indefinite-lived trade name and other asset impairment charges, restructuring charges, acquisition and integration costs, amortization of acquired intangible assets, debt financing costs, gains or losses related to the divestiture of businesses or equity method investments and non-operating investment gains or losses;
- Organic revenue growth is defined as U.S. GAAP revenue growth excluding the impact of divestitures, acquisitions and currency effects; and
- Available cash flow is defined as U.S. GAAP net cash from operating activities less capital expenditures.

These non-GAAP measures may not be defined and calculated the same as similar measures used by other companies.
