ALLEGION PLC
NOTES TO CONDENSED AND CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1 - BASIS OF PRESENTATION

The accompanying Condensed and Consolidated Financial Statements of Allegion plc, an Irish public limited company, and its consolidated subsidiaries (“Allegion” or “the Company”), reflect the consolidated operations of the Company and have been prepared in accordance with United States (“U.S.”) Securities and Exchange Commission (“SEC”) interim reporting requirements. Accordingly, the accompanying Condensed and Consolidated Financial Statements do not include all disclosures required by accounting principles generally accepted in the U.S. (“GAAP”) for full financial statements and should be read in conjunction with the Consolidated Financial Statements included in the Allegion Annual Report on Form 10-K for the year ended December 31, 2025. In the opinion of management, the accompanying Condensed and Consolidated Financial Statements contain all adjustments, which include normal recurring adjustments, necessary to state fairly the consolidated unaudited results for the interim periods presented.

NOTE 2 - RECENT ACCOUNTING PRONOUNCEMENTS*Recently Issued Accounting Pronouncements*

In November 2024, the FASB issued ASU No. 2024-03, “Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses,” which requires disaggregated disclosures of certain categories of expenses that are included in expense line items on the face of the consolidated statements of comprehensive income. This guidance will be effective for annual periods beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027. This ASU is to be applied prospectively, but retrospective application is permitted. This ASU will result in additional required disclosures in the Company’s Consolidated Financial Statements once adopted.

In September 2025, the FASB issued ASU No. 2025-06, “Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software”, which removes references to prescriptive and sequential software development stages, and requires entities to start capitalizing software costs when management has authorized and committed to funding the software project and it is probable that the project will be completed and the software will be used to perform the function intended. This guidance will be effective for annual and interim periods beginning after December 15, 2027. This ASU is to be applied prospectively, but retrospective application is permitted. This ASU is not expected to have a material impact to the Company’s Consolidated Financial Statements.

In December 2025, the FASB issued ASU No. 2025-11, “Interim Reporting: Narrow-Scope Improvements”, which creates a comprehensive list of interim disclosure requirements, clarifies the scope and applicability of those interim disclosure requirements, and adds a principle requiring disclosure of material events and transactions that have occurred since the Company’s most recently filed Annual Report on Form 10-K that have not otherwise been disclosed. This guidance will be effective for interim reporting periods beginning after December 15, 2027, with early adoption permitted. The Company is evaluating the impact of this ASU on its Condensed and Consolidated Financial Statements.

NOTE 3 - ACQUISITIONS**2026**

On March 2, 2026, the Company, through its subsidiaries, acquired 100% of Door Components, Inc. (“DCI”), a manufacturer of custom, quick ship hollow metal doors and frames for industrial, commercial and institutional markets based in the United States. DCI is reported in the Company’s Allegion Americas segment. The purchase consideration, net of cash acquired, was approximately \$69.9 million. This acquisition was accounted for as a business combination and was funded with available cash on hand and borrowings under the Revolving Facility.

2025

The following acquisitions were made during the six months ended June 30, 2025:

Next Door

On February 4, 2025, the Company, through its subsidiaries, acquired Next Door Company (“Next Door”), a global provider of security products and solutions based in the United States. Next Door is reported in the Company’s Allegion Americas segment.

Lemaar

On March 1, 2025, the Company, through its subsidiaries, acquired Lemaar Pty Ltd (“Lemaar”), a global provider of security products and solutions based in Australia. Lemaar is reported in the Company’s Allegion International segment.

Less current portion of long-term debt	0.2	0.2
Total long-term debt	<u>\$ 2,030.9</u>	<u>\$ 1,979.9</u>

Unsecured Credit Facilities

The Company has an unsecured revolving credit facility (the “Revolving Facility”) that matures on May 20, 2030, and provides aggregate commitments of up to \$1.0 billion, which includes up to \$100.0 million for the issuance of letters of credit. As of June 30, 2026, the Company had outstanding borrowings of \$240.6 million and letters of credit of \$25.3 million. The Revolving Facility is unconditionally guaranteed jointly and severally on an unsecured basis by Allegion plc, Allegion US Holding Company Inc. (“Allegion US Hold Co”), the Company’s wholly-owned subsidiary, and Allegion (Ireland) Finance Designated Activity Company (“Allegion Ireland DAC”), the Company’s wholly-owned subsidiary.

Borrowings under the Revolving Facility are due upon its maturity but may be repaid at any time without premium or penalty, and amounts repaid may be reborrowed. The Company pays certain fees with respect to the Revolving Facility, including an unused commitment fee on the undrawn portion of between 0.080% and 0.200% per year depending on the Company’s credit ratings, as well as certain other fees.

Outstanding borrowings under the Revolving Facility accrue interest, at the option of the Company, equal to either: (i) a Secured Overnight Financing Rate (“SOFR”) rate plus an applicable margin or (ii) a base rate (as defined in the credit agreement) plus the applicable margin. The applicable margin ranges from 0.875% to 1.375% depending on the Company’s credit ratings. At June 30, 2026, the Company’s outstanding borrowings under the Revolving Facility accrued interest at SOFR plus a margin of 1.125%, resulting in an interest rate of 4.753%. The Revolving Facility also contains negative and affirmative covenants and events of default that, among other things, limit or restrict the Company’s ability to enter into certain transactions. In addition, the Revolving Facility requires the Company to comply with a maximum leverage ratio as defined in the credit agreement. As of June 30, 2026, the Company was in compliance with all applicable covenants under the credit agreement.

Senior Notes

As of June 30, 2026, Allegion US Hold Co has \$400.0 million outstanding of its 3.550% Senior Notes due 2027 (the “3.550% Senior Notes”), \$600.0 million outstanding of its 5.411% Senior Notes due 2032 (the “5.411% Senior Notes”) and \$400.0 million outstanding of its 5.600% Senior Notes due 2034 (the “5.600% Senior Notes”), and Allegion plc has \$400.0 million outstanding of its 3.500% Senior Notes due 2029 (the “3.500% Senior Notes,” and all four senior notes collectively, the “Senior Notes”). The 3.550% Senior Notes and 3.500% Senior Notes both require semi-annual interest payments on April 1 and October 1 of each year and mature on October 1, 2027 and October 1, 2029, respectively. The 5.411% Senior Notes require semi-annual interest payments on January 1 and July 1 of each year and mature on July 1, 2032. The 5.600% Senior Notes require semi-annual interest payments on May 29 and November 29 of each year and mature on May 29, 2034.

The 3.550% Senior Notes, 5.411% Senior Notes and 5.600% Senior Notes are senior unsecured obligations of Allegion US Hold Co and rank equally with all of Allegion US Hold Co’s existing and future senior unsecured and unsubordinated indebtedness. The guarantee of the 3.550% Senior Notes, 5.411% Senior Notes and 5.600% Senior Notes is the senior unsecured obligation of Allegion plc and ranks equally with all of the Company’s existing and future senior unsecured and

unsubordinated indebtedness. The 3.500% Senior Notes are senior unsecured obligations of Allegion plc, are guaranteed by Allegion US Hold Co and rank equally with all of the Company's existing and future senior unsecured indebtedness. As of June 30, 2026, the Company was in compliance with all applicable covenants under the Senior Notes.

NOTE 8 - FINANCIAL INSTRUMENTS

Currency Hedging Instruments

The Company uses foreign currency forward and cross-currency swap contracts to manage the risks associated with currency exchange rate exposures.

In the second quarter of 2026, the Company entered into cross-currency swaps with gross notional amounts totaling \$100.0 million maturing in July 2032. These instruments were designated as a net investment hedge of a Euro functional currency denominated subsidiary. Periodic swap interest accruals are recognized in Net earnings and changes in the fair value of the swaps are recorded in Accumulated other comprehensive loss as a component of Currency translation. The Company determined the hedge to be effective at inception of the hedge relationship and will assess effectiveness quarterly thereafter by ensuring the net investment in the associated Euro functional currency denominated subsidiaries is greater than the derivative notional amount. As of June 30, 2026, the fair value of the cross-currency swaps was \$0.3 million within Other noncurrent liabilities in the Condensed and Consolidated Balance Sheets.

Net investment hedges are used to hedge the foreign currency risk of net investments in foreign operations. Cash flows upon settlement of a net investment hedge and for periodic interest received or paid are classified as investing activities in the Condensed and Consolidated Statements of Cash Flows. Recognition in earnings of amounts previously recognized in Accumulated other comprehensive loss is limited to circumstances such as complete or substantially complete liquidation of the net investment in the hedged foreign operation. In the event of a complete or substantially complete liquidation of the net investment, cash flows from net investment hedges are classified as investing activities in the Condensed and Consolidated Statements of Cash Flows.

The gross notional amount of the Company's currency derivatives was \$341.4 million and \$320.1 million at June 30, 2026 and December 31, 2025, respectively. Neither the fair values of currency derivatives, which are determined based on a pricing model that uses spot rates and forward prices from actively quoted currency markets that are readily observable (Level 2 inputs under the fair value hierarchy described in Note 11), nor the balances included in Accumulated other comprehensive loss were material as of June 30, 2026 or December 31, 2025. Currency derivatives did not have a material impact to Net earnings, Other comprehensive income, or the Condensed and Consolidated Statements of Cash Flows during the six months ended June 30, 2026 and 2025, nor is the amount to be reclassified into Net earnings over the next 12 months expected to be material. At June 30, 2026, the maximum term of the Company's foreign currency forward contracts was less than one year, and the term of the Company's cross-currency swaps was six years.

Concentration of Credit Risk

The counterparties to the Company's forward contracts and cross-currency swaps consist of several investment grade major international financial institutions. The Company could be exposed to losses in the event of nonperformance by the counterparties. However, the credit ratings and the concentration of risk in these financial institutions are monitored on a continuous basis, and therefore, the Company believes they present no significant credit risk to the Company.

NOTE 9 - LEASES

Total rental expense for the six months ended June 30, 2026 and 2025, was \$37.5 million and \$33.2 million, respectively, and is classified within Cost of goods sold and Selling and administrative expenses within the Condensed and Consolidated Statements of Comprehensive Income. Rental expense related to short-term leases, variable lease payments or other leases or lease components not included within the right of use ("ROU") asset or lease liability totaled \$7.4 million and \$7.5 million for the six months ended June 30, 2026 and 2025. No material lease costs have been capitalized on the Condensed and Consolidated Balance Sheets as of June 30, 2026 or December 31, 2025.

The Company assesses the specific terms and conditions of each lease to determine the appropriate classification as either an operating or finance lease and the lease term. Substantially all of the Company's leases for which the Company is a lessee are classified as operating leases.

ALLEGION PLC
NOTES TO CONDENSED AND CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The difference between the total undiscounted minimum lease payments and the combined current and noncurrent lease liabilities as of June 30, 2026, is due to imputed interest of \$47.0 million.

NOTE 10 - DEFINED BENEFIT PLANS

The Company sponsors several U.S. and non-U.S. defined benefit pension plans for eligible employees and retirees and also maintains other supplemental plans for officers and other key employees.

On May 31, 2026, the Company transferred obligations of \$19.7 million from a U.S. defined benefit pension plan to a third-party insurance company by purchasing a group annuity contract using an equivalent amount of plan assets. The transaction did not have a material impact on the funded status of the pension plan. As a result of the transaction, the Company recorded a \$3.7 million settlement charge during the three months ended June 30, 2026, which was reflected as a component of Other income, net. The plan's assets and liabilities were remeasured as of the settlement date, resulting in a remaining projected benefit obligation of \$195.9 million, and fair value of plan assets of \$207.1 million. The discount rate used to determine the projected benefit obligation at the settlement date was 5.55%, compared to 5.37% as of December 31, 2025. The expected long-term return on plan assets remained 6.50%.

Service cost is recorded in Cost of goods sold and Selling and administrative expenses, while the remaining components of Net periodic pension benefit cost (income) are recorded in Other expense (income), net within the Condensed and Consolidated Statements of Comprehensive Income. Employer contributions to the plans were not material during the six months ended June 30, 2026 or 2025. Employer contributions totaling approximately \$3.9 million are expected to be made during the remainder of 2026.

NOTE 11 - FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Fair value measurements are based on a framework that utilizes the inputs market participants use to determine the fair value of an asset or liability and establishes a fair value hierarchy to prioritize those inputs. The fair value hierarchy is comprised of three levels that are described below:

- Level 1 – Inputs based on quoted prices in active markets for identical assets or liabilities.
- Level 2 – Inputs other than Level 1 quoted prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability.
- Level 3 – Unobservable inputs based on little or no market activity and that are significant to the fair value of the assets and liabilities.

The fair value hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs are obtained from independent sources and can be validated by a third party, whereas unobservable inputs reflect assumptions regarding what a third party would use in pricing an asset or liability based on the best information available under the circumstances. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Assets and liabilities measured at fair value as of December 31, 2025, were as follows:

<i>In millions</i>	Fair value measurements			
	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total fair value

Total financial instruments not carried at fair value	\$ —	\$ 2,021.1	\$ —	\$ 2,021.1

The Company determines the fair value of its financial assets and liabilities using the following methodologies:

- *Investments* – These instruments include equity mutual funds and corporate bond funds. The fair value is obtained based on observable market prices quoted on public exchanges for similar instruments.
- *Deferred compensation and other retirement plans* – These include obligations related to deferred compensation and other retirement plans adjusted for market performance. The fair value is obtained based on observable market prices quoted on public exchanges for similar instruments.
- *Debt* – These instruments are recorded at cost and include the Revolving Facility and Senior Notes maturing through 2034. The fair value of these debt instruments is obtained based on observable market prices quoted on public exchanges for similar instruments.

The methodologies used by the Company to determine the fair value of its financial assets and liabilities as of June 30, 2026, are the same as those used as of December 31, 2025. The carrying values of Cash and cash equivalents, Accounts and notes receivable, net, Accounts payable and Accrued expenses and other current liabilities are a reasonable estimate of their fair value due to the short-term nature of these instruments.

The Company also had investments in debt and equity securities without readily determinable fair values of \$66.6 million and \$66.8 million as of June 30, 2026 and December 31, 2025, respectively, which are classified as Other noncurrent assets within the Condensed and Consolidated Balance Sheets. These investments are considered to be nonrecurring fair value measurements, and thus, are not included in the fair value tables above.

NOTE 13 - SHARE-BASED COMPENSATION

The Company's share-based compensation plans include programs for stock options, restricted stock units ("RSUs") and performance stock units ("PSUs"). Share-based compensation expense is included in Cost of goods sold and Selling and administrative expenses within the Condensed and Consolidated Statements of Comprehensive Income. The following table summarizes the share-based compensation expense recognized for the three and six months ended June 30:

<i>In millions</i>	Three months ended		Six months ended	
	2026	2025	2026	2025
Stock options	\$ 1.1	\$ 1.1	\$ 3.4	\$ 3.4

Stock Options / RSUs

Eligible participants may receive (i) stock options, (ii) RSUs or (iii) a combination of both stock options and RSUs. Grants issued during the six months ended June 30 were as follows:

	2026		2025	
	Number granted	Weighted-average fair value per award	Number granted	Weighted-average fair value per award
Stock options	108,951	\$ 42.88	138,538	\$ 37.72

ALLEGION PLC
NOTES TO CONDENSED AND CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

The weighted-average fair value of the stock options granted is determined using the Black-Scholes option-pricing model. The following weighted-average assumptions were used during the six months ended June 30:

	2026	2025
Dividend yield	1.35 %	1.61 %
Volatility	25.89 %	29.89 %
Risk-free rate of return	3.65 %	4.31 %
Expected life (years)	5.3	5.4

Volatility is based on the Company's historic volatility. The risk-free rate of return is based on the yield curve of a zero-coupon U.S. Treasury bond on the date the award is granted with a maturity equal to the expected term of the award. The expected life of the Company's stock option awards is derived from historical data, based on the past exercise activity and post-vest cancellation activity of the Company's stock option program and represents the period of time that awards are expected to be outstanding.

Performance Stock

During the six months ended June 30, 2026, the Company granted PSUs with a maximum award level of approximately 0.1 million shares. In February 2024, 2025 and 2026, the Company's Compensation and Human Capital Committee granted PSUs that were earned based 50% upon a performance condition, measured at each reporting period by earnings per share ("EPS") performance in relation to pre-established targets for each performance period set by the Compensation and Human Capital Committee of the Board, and 50% upon a market condition, measured by the Company's relative total shareholder return against a 50/50 blend of the S&P 400 Capital Goods Index and the S&P 500 Capital Goods Index over a three-year performance period. The fair values of the market condition are estimated using a Monte Carlo Simulation approach in a risk-neutral framework to model future stock price movements based upon historical volatility, risk-free rates of return and a correlation matrix.

NOTE 14 - RESTRUCTURING ACTIVITIES

During the six months ended June 30, 2026, the Company recorded \$8.5 million of expenses associated with restructuring activities, which are included within Cost of goods sold and Selling and administrative expenses within the Condensed and Consolidated Statements of Comprehensive Income. The Company anticipates additional future restructuring charges related to certain of the restructuring actions initiated during the six months ended June 30, 2026. These restructuring activities primarily relate to workforce reductions intended to optimize and simplify operations and cost structure in the Allegion International and Allegion Americas segments.

The changes in the restructuring reserve during the six months ended June 30, 2026, were as follows:

<i>In millions</i>	Total
December 31, 2025	\$ 1.9
Additions, net of reversals	8.5
Cash payments	(6.2)
June 30, 2026	\$ 4.2

The restructuring reserve is included in Accrued expenses and other current liabilities within the Condensed and Consolidated Balance Sheets. The majority of the costs accrued as of June 30, 2026, are expected to be paid within one year.

The Company also incurred, and expects to incur, other non-qualified restructuring charges related to these restructuring actions initiated, which represent costs that are directly attributable to restructuring activities but that do not fall into the severance, exit or disposal category. These costs were not material during the six months ended June 30, 2026. Non-qualified restructuring charges are included within Cost of goods sold and Selling and administrative expenses within the Condensed and Consolidated Statements of Comprehensive Income. The majority of restructuring charges incurred over the remainder of 2026 will result in cash expenditures.

Net periodic pension and postretirement benefit cost, less service cost for the three and six months ended June 30, 2026 includes a one-time \$3.7 million settlement charge related to a U.S. defined benefit pension plan.

NOTE 16 - INCOME TAXES

The effective income tax rates for the three months ended June 30, 2026 and 2025, were 19.0% and 20.3%, respectively. The decrease in the effective income tax rate compared to 2025 is primarily due to unfavorable discrete charges in the prior year and favorable discrete adjustments in the current year.

The effective income tax rates for the six months ended June 30, 2026 and 2025, were 19.2% and 18.0%, respectively. The increase in the effective income tax rate compared to 2025 is primarily due to unfavorable year over year changes in the amounts recognized for uncertain tax positions and the unfavorable mix of income earned in higher tax rate jurisdictions.

NOTE 17 - EARNINGS PER SHARE (“EPS”)

Basic EPS is calculated by dividing Net earnings by the weighted-average number of ordinary shares outstanding for the applicable period. Diluted EPS is calculated after adjusting the denominator of the basic EPS calculation for the effect of all potentially dilutive ordinary shares, which in the Company’s case includes shares issuable under share-based compensation plans.

The following table summarizes the weighted-average number of ordinary shares outstanding for basic and diluted EPS calculations for the three and six months ended June 30:

<i>In millions</i>	Three months ended		Six months ended	
	2026	2025	2026	2025
Weighted-average number of basic shares	85.7	86.0	85.9	86.2
Shares issuable under share-based compensation plans	0.3	0.4	0.4	0.4
Weighted-average number of diluted shares	<u>86.0</u>	<u>86.4</u>	<u>86.3</u>	<u>86.6</u>

At June 30, 2026 and 2025, 0.2 million shares issuable under share-based compensation plans were excluded from the computation of weighted-average diluted shares outstanding because the effect of including these shares would have been anti-dilutive.

NOTE 18 - NET REVENUES

The following tables show the Company’s Net revenues related to both tangible product sales and services and software for the three and six months ended June 30, 2026 and 2025, respectively, disaggregated by business segment:

Net revenues are shown by tangible product sales and services and software, as contract terms, conditions and economic factors affecting the nature, amount, timing and uncertainty around revenue recognition and cash flows are substantially similar within each of these two principal revenue streams.

As of June 30, 2026 and December 31, 2025, contract assets related to the Company's right to consideration for work completed but not billed were not material. The Company does not have any material costs to obtain or fulfill a contract that are capitalized on its Condensed and Consolidated Balance Sheets. During the three and six months ended June 30, 2026 and 2025, no adjustments related to performance obligations satisfied in previous periods were recorded.

As of June 30, 2026 and December 31, 2025, contract liabilities related to revenues allocated to remaining performance obligations totaled \$56.4 million and \$41.2 million, respectively, and are classified as Accrued expenses and other current liabilities and Other noncurrent liabilities within the Condensed and Consolidated Balance Sheets. The Company's total current contract liabilities related to revenues as of June 30, 2026 and December 31, 2025 totaled \$49.8 million and \$36.0 million, respectively, and the remainder was classified as noncurrent.

NOTE 19 - COMMITMENTS AND CONTINGENCIES

The Company is involved in various litigation, claims and administrative proceedings, including those related to environmental and product warranty matters, and the Company also has certain contractual obligations requiring minimum purchases. Amounts recorded for identified contingent liabilities are estimates, which are reviewed periodically and adjusted to reflect additional information when it becomes available. Subject to the uncertainties inherent in estimating future costs for contingent liabilities, except as expressly set forth in this note, management believes that any liability which may result from these legal matters would not have a material adverse effect on the financial condition, results of operations, liquidity or cash flows of the Company.

Environmental Matters

As of June 30, 2026 and December 31, 2025, the Company had reserves for environmental matters of \$21.9 million and \$22.7 million, respectively. The total reserve at June 30, 2026 and December 31, 2025, included \$9.1 million and \$9.3 million, respectively, related to remediation of sites previously disposed by the Company. Environmental reserves are classified as Accrued expenses and other current liabilities or Other noncurrent liabilities within the Condensed and Consolidated Balance Sheets based on the timing of their expected future payment. The Company's total current environmental reserve at June 30, 2026 and December 31, 2025, was \$5.7 million and \$6.0 million, respectively, and the remainder was classified as noncurrent. Expenses related to environmental remediation were not material during the six months ended June 30, 2026 or 2025. Given the evolving nature of environmental laws, regulations and technology, the ultimate cost of future environmental remediation is uncertain.

Warranty Liability

The changes in the standard product warranty liability for the six months ended June 30 were as follows:

<i>In millions</i>	2026	2025
Balance at beginning of period	\$ 26.2	\$ 22.8
Reductions for payments	(6.9)	(5.7)

Acquisitions	0.4	—
Currency translation	(0.2)	0.7
Balance at end of period	<u>\$ 26.1</u>	<u>\$ 23.5</u>

Standard product warranty liabilities are classified as either Accrued expenses and other current liabilities or Other noncurrent liabilities within the Condensed and Consolidated Balance Sheets based on the timing of the expected future payments.

Contractual Obligations

As of June 30, 2026, the Company has arrangements with certain software and information technology service providers that require future minimum purchases of \$63.4 million over the remainder of 2026 through 2030.

NOTE 20 - BUSINESS SEGMENT INFORMATION

The Company classifies its business into the following two reportable segments based on industry and market focus: Allegion Americas and Allegion International. The Company largely evaluates performance based on Segment operating income and Segment operating margins. The Company's chief operating decision maker (the "CODM") is its chief executive officer, who uses segment operating income as the measure of profit and loss to evaluate the financial performance of the business and as the basis for resource allocation, performance reviews and compensation. For these reasons, the Company believes that Segment operating income represents the most relevant measure of segment profit and loss. The Company's CODM may exclude certain charges or gains, such as corporate charges and other special charges, from Operating income to arrive at a Segment operating income that is a more meaningful measure of profit and loss upon which to base operating decisions.

A summary of operations by reportable segment for the three and six months ended June 30 was as follows:

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following Management’s Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from the results discussed in the forward-looking statements. Factors that may cause a difference include, but are not limited to, those discussed under Part I, Item 1A – Risk Factors in the Annual Report on Form 10-K for the fiscal year ended December 31, 2025. The following section is qualified in its entirety by the more detailed information, including our Condensed and Consolidated Financial Statements and the notes thereto, which appears elsewhere in this Quarterly Report.

Overview

Organization

Allegion plc and its consolidated subsidiaries (“Allegion,” “the Company,” “we,” “our,” or “us”) are a leading global provider of security products and solutions operating in two segments: Allegion Americas and Allegion International. We sell a wide range of security products and solutions for end-users in commercial, institutional and residential facilities worldwide, including the education, healthcare, government, hospitality, retail, commercial office and single and multi-family residential markets. Our leading brands include CISA®, Interflex®, LCN®, Schlage®, SimonsVoss® and Von Duprin®.

Recent Developments

Business and Industry Trends and Outlook and Global Trade and Macroeconomic Environment

In the second quarter of 2026, we delivered low-double digit revenue growth compared to the same period in 2025, driven by volume growth, favorable pricing and the impact from recent acquisitions. Demand for electronic security products has also remained strong and continues to be a long-term growth driver.

On February 20, 2026, the U.S. Supreme Court ruled that certain tariffs imposed under the International Emergency Economic Powers Act (“IEEPA”) were invalid, and in March 2026, the U.S. Court of International Trade further ruled that importers that paid such tariffs are due refunds. In the second quarter of 2026, U.S. Customs and Border Protection launched a system to process IEEPA tariff refund claims, and we formally submitted claims for qualifying IEEPA tariff refunds. Refunds received related to those claims have not been significant. Although we may be entitled to additional refunds of previously paid IEEPA tariffs, the amount and timing of any such refunds remain uncertain, and as of June 30, 2026 we have not recorded any amounts for recoveries that have not been received. The global tariff landscape continues to shift, and we continue to monitor these developments and assess their potential impacts.

Following these rulings, new tariffs were imposed under other laws and on imports from more countries, in addition to existing non-IEEPA tariffs. Through the six months ended June 30, 2026, we have offset inflation due to tariffs with pricing actions. We continue to analyze the impact of changes in tariffs and what steps, if any, including pricing actions, we may take to mitigate the impact of the tariffs. We estimate we source approximately 20-25% of cost of goods sold (“COGS”) from Mexico, less than 5% of COGS from China, and 5-10% of COGS from all other non-U.S. countries. Existing or new tariffs could impact future demand.

Acquisitions

On March 2, 2026, we, through our subsidiaries, acquired 100% of Door Components, Inc. (“DCI”), a manufacturer of custom, quick ship hollow metal doors and frames for industrial, commercial and institutional markets based in the United States. DCI is reported in the Company’s Allegion Americas segment. The purchase consideration, net of cash acquired, was approximately \$70 million. This acquisition was accounted for as a business combination and was funded with available cash on hand and borrowings under the Revolving Facility.

2026 Dividends and Share Repurchases

During the six months ended June 30, 2026, we paid dividends of \$1.10 per ordinary share to shareholders.

On April 15, 2026, the Board replenished the funds available for the repurchase of the Company’s ordinary shares under its existing share repurchase program and, as a result, authorized the repurchase of a total amount of up to \$500.0 million of the Company’s ordinary shares under the program. During the six months ended June 30, 2026, we repurchased approximately 1.2 million shares for \$160.6 million.

The discussions that follow describe the significant factors contributing to the changes in our results of operations for the periods presented and form the basis used by management to evaluate the financial performance of the business.

Net Revenues

Net revenues for the three months ended June 30, 2026, increased by 12.7%, or \$129.5 million, compared with the same period in 2025, due to the following:

Pricing	3.3 %
Volume	3.6 %
Acquisitions / divestitures	5.1 %
Currency exchange rates	0.7 %
Total	12.7 %

The increase in Net revenues was driven by higher volumes, improved pricing, the favorable impact from acquisitions, net of divestitures and favorable foreign currency exchange rate movements.

Pricing includes increases or decreases of price, including discounts, surcharges and/or other sales deductions, on our existing products and services. Volume includes increases or decreases of revenue due to changes in unit volume of existing products and services, as well as new products and services.

Operating Income/Margin

Operating income for the three months ended June 30, 2026, increased \$35.0 million compared to the same period in 2025. Operating margin, which we define as Operating income as a percentage of total Net revenues, for the three months ended June 30, 2026, increased to 22.1% from 21.5% for the same period in 2025, due to the following:

<i>In millions</i>	Operating Income	Operating Margin
June 30, 2025	\$ 219.7	21.5 %
Pricing and productivity in excess of inflation and investment spending	14.1	0.6 %
Volume / product mix	14.7	0.6 %
Currency exchange rates	(0.8)	(0.2)%
Acquisitions / divestitures	8.8	(0.2)%
Acquisition / integration / restructuring expenses	(1.8)	(0.2)%
June 30, 2026	\$ 254.7	22.1 %

The increase in Operating income was driven by favorable volume/product mix, pricing and productivity improvements in excess of inflation and investment spending and the favorable impact from acquisitions/divestitures. These increases were partially offset by higher acquisition, integration and restructuring expenses and unfavorable foreign currency exchange rate movements, inclusive of transactional foreign currency.

The increase in Operating margin was driven by favorable volume/product mix and pricing and productivity improvements in excess of inflation and investment spending. These increases were partially offset by higher acquisition, integration and

restructuring expenses, unfavorable foreign currency exchange rate movements, inclusive of transactional foreign currency and the unfavorable impact on operating margin from acquisitions, net of divestitures.

Pricing and productivity in excess of inflation and investment spending includes the impact to both Operating income and Operating margin from pricing, as defined above, in addition to productivity, inflation and investment spending. Productivity represents improvements in unit costs of materials, cost reductions related to improvements to our manufacturing design and processes and reductions in selling and administrative expenses due to productivity projects. Inflation includes both unit costs for the current period compared to the average actual cost for the prior period, multiplied by current year volumes, and current period costs of ongoing selling and administrative functions compared to the same ongoing expenses in the prior period. Expenses related to increased head count for strategic initiatives, new facilities or other significant spending for strategic initiatives or new product and channel development, are captured in investment spending.

Volume/product mix represents the impact to both Operating income and Operating margin due to increases or decreases of revenue due to changes in unit volume, including new products and services, including the effect of changes in the mix of products and services sold on Cost of goods sold.

Interest Expense

Interest expense for the three months ended June 30, 2026, increased \$0.2 million compared with the same period in 2025, primarily due to higher average outstanding indebtedness partially offset by lower weighted-average interest rates.

Other Expense (Income), net

The components of Other expense (income), net for the three months ended June 30 were as follows:

<i>In millions</i>	2026	2025
Interest income	\$ (1.6)	\$ (3.8)
Foreign currency exchange loss	0.7	0.5
Net periodic pension and postretirement benefit cost, less service cost	3.9	0.1
Other income	(1.0)	(2.1)
Other expense (income), net	\$ 2.0	\$ (5.3)

Net periodic pension and postretirement benefit cost, less service cost for the three months ended June 30, 2026 includes a one-time \$3.7 million settlement charge related to a U.S. defined benefit pension plan.

Provision for Income Taxes

The effective income tax rates for the three months ended June 30, 2026 and 2025, were 19.0% and 20.3%, respectively. The decrease in the effective income tax rate compared to 2025 is primarily due to unfavorable discrete charges in the prior year and favorable discrete adjustments in the current year.

Results of Operations – Six months ended June 30, 2026

The discussions that follow describe the significant factors contributing to the changes in our results of operations for the periods presented and form the basis used by management to evaluate the financial performance of the business.

Net Revenues

Net revenues for the six months ended June 30, 2026, increased by 11.3%, or \$221.2 million, compared with the same period in 2025, due to the following:

Pricing	4.0 %
Volume	0.8 %
Acquisitions / divestitures	5.0 %
Currency exchange rates	1.5 %
Total	11.3 %

The increase in Net revenues was driven by improved pricing, higher volumes, the favorable impact from acquisitions, net of divestitures and favorable foreign currency exchange rate movements.

Operating Income/Margin

Operating income for the six months ended June 30, 2026, increased \$33.9 million compared to the same period in 2025. Operating margin, which we define as Operating income as a percentage of total Net revenues, for the six months ended June 30, 2026, decreased to 20.6% from 21.2% for the same period in 2025, due to the following:

<i>In millions</i>	Operating Income	Operating Margin
June 30, 2025	\$ 416.1	21.2 %
Pricing and productivity in excess of inflation and investment spending	22.4	0.3 %
Volume / product mix	4.0	— %

Acquisitions / divestitures	16.2	(0.2)%
Acquisition / integration / restructuring expenses	(8.5)	(0.4)%
June 30, 2026	\$ 450.0	20.6 %

The increase in Operating income was driven by pricing and productivity improvements in excess of inflation and investment spending, the favorable impact from acquisitions/divestitures and favorable volume/product mix. These increases were partially offset by higher acquisition, integration and restructuring expenses and unfavorable foreign currency exchange rate movements, inclusive of transactional foreign currency.

The decrease in Operating margin was driven by higher acquisition, integration and restructuring expenses, unfavorable foreign currency exchange rate movements, inclusive of transactional foreign currency and the unfavorable impact on operating margin from acquisitions, net of divestitures. These decreases are partially offset by pricing and productivity improvements in excess of inflation and investment spending.

Interest Expense

Interest expense for the six months ended June 30, 2026, decreased \$0.3 million compared with the same period in 2025, primarily due to a lower weighted-average interest rate on our outstanding indebtedness.

Other Expense (Income), net

The components of Other expense (income), net for the six months ended June 30 were as follows:

<i>In millions</i>	2026	2025
Interest income	\$ (2.9)	\$ (7.8)
Foreign currency exchange loss	1.5	1.5
Net periodic pension and postretirement benefit cost, less service cost	4.1	0.1
Other income	(1.1)	(2.6)
Other expense (income), net	\$ 1.6	\$ (8.8)

Net periodic pension and postretirement benefit cost, less service cost for the six months ended June 30, 2026 includes a one-time \$3.7 million settlement charge related to a U.S. defined benefit pension plan.

Provision for Income Taxes

The effective income tax rates for the six months ended June 30, 2026 and 2025, were 19.2% and 18.0%, respectively. The increase in the effective income tax rate compared to 2025 is primarily due to unfavorable year over year changes in the amounts recognized for uncertain tax positions and unfavorable mix of income earned in higher tax rate jurisdictions.

Review of Business Segments

We operate in and report financial results for two segments: Allegion Americas and Allegion International. These segments represent the level at which our chief operating decision maker reviews our financial performance and makes operating decisions.

Segment operating income is the measure of profit and loss that our chief operating decision maker uses to evaluate the financial performance of the business and as the basis for resource allocation, performance reviews and compensation. For these reasons, we believe that Segment operating income represents the most relevant measure of Segment profit and loss. Our chief operating decision maker may exclude certain charges or gains, such as corporate charges and other special charges, to arrive at a Segment operating income that is a more meaningful measure of profit and loss upon which to base our operating decisions. We define Segment operating margin as Segment operating income as a percentage of the segment's Net revenues.

The segment discussions that follow describe the significant factors contributing to the changes in results for each segment included in Net earnings.

Allegion Americas

Our Allegion Americas segment is a leading provider of security products, services and solutions throughout North America. The segment sells a broad range of products and solutions including locks, locksets, key systems, door controls and door control systems, exit devices, doors, glass and door systems, accessories, electronic security products, access control systems and software and service solutions to customers in institutional, commercial and residential facilities, including the education, healthcare, government, hospitality, retail, commercial office and single and multi-family residential markets. This segment's primary brands are LCN, Schlage, Von Duprin and Stanley Access Technologies, which we utilize with permission in accordance with the terms of an agreement with STANLEY Black & Decker ("STANLEY" is the property of Stanley Logistics L.L.C.).

Net Revenues

Net revenues for the three months ended June 30, 2026, increased by 11.8%, or \$97.1 million, compared to the same period in 2025, due to the following:

Pricing	4.0 %
Volume	4.9 %
Acquisitions	2.9 %
Total	11.8 %

The increase in Net revenues was driven by higher volumes, improved pricing and the favorable impact of acquisitions.

Net revenues from non-residential products for the three months ended June 30, 2026, increased by a low-double digits percent compared to the same period in the prior year. These increases were driven by higher volumes, improved pricing and revenue from acquisitions. Net revenues from residential products for the three months ended June 30, 2026, increased by a high-single digits percent compared to the same period in the prior year. These increases were primarily driven by higher volumes and improved pricing.

Growth in electronic security products and solutions is a metric that is actively monitored by management and a focus of our investors. Electronic products encompass both residential and non-residential solutions and include all electrified product categories including, but not limited to, electronic and electrified locks, access control systems and electronic and electrified door controls and systems and exit devices. For the three months ended June 30, 2026, Net revenues from the sale of electronic products in the Allegion Americas segment increased by a low-teens percent compared to the same period in the prior year. We expect continued growth in our electronic products in 2026.

Net revenues for the six months ended June 30, 2026, increased by 9.4%, or \$149.2 million, compared to the same period in 2025, due to the following:

Pricing	4.7 %
Volume	2.1 %
Acquisitions	2.5 %
Currency exchange rates	0.1 %
Total	9.4 %

The increase in Net revenues was driven by improved pricing, the favorable impact of acquisitions, higher volumes and favorable foreign currency exchange rate movements.

Net revenues from non-residential products for the six months ended June 30, 2026, increased by a low-double digits percent compared to the same period in the prior year. These increases were driven by improved pricing, revenue from acquisitions, higher volumes and favorable foreign currency exchange rate movements. Net revenues from residential products for the six months ended June 30, 2026, increased by a mid-single digit percent compared to the same period in the prior year. These increases were primarily driven by improved pricing and higher volumes.

Net revenues from the sale of electronic products for the six months ended June 30, 2026, increased by a high-single digits percent compared to the same period in the prior year. We expect continued growth in our electronic products in 2026.

Operating income/margin

Segment operating income for the three months ended June 30, 2026, increased \$30.2 million compared to the same period in 2025, and Segment operating margin for the three months ended June 30, 2026, increased to 29.0% from 28.8%, due to the following:

<i>In millions</i>	Operating Income	Operating Margin

Pricing	0.8 %
Volume	(2.0)%
Acquisitions / divestitures	14.3 %
Currency exchange rates	3.1 %
Total	16.2 %

The increase in Net revenues was driven by the favorable impact from acquisitions, net of divestitures, favorable foreign currency exchange rate movements and improved pricing. These increases were partially offset by lower volumes.

Net revenues for the six months ended June 30, 2026, increased by 18.7%, or \$72.0 million, compared to the same period in 2025, due to the following:

Pricing	1.0 %
Volume	(4.2)%
Acquisitions / divestitures	15.1 %
Currency exchange rates	6.8 %
Total	18.7 %

The increase in Net revenues was driven by the favorable impact from acquisitions, net of divestitures, favorable foreign currency exchange rate movements and improved pricing. These increases were partially offset by lower volumes.

Operating income/margin

Segment operating income for the three months ended June 30, 2026, decreased \$0.9 million compared to the same period in 2025, and Segment operating margin for the three months ended June 30, 2026, decreased to 6.4% from 7.8%, due to the following:

<i>In millions</i>	Operating Income	Operating Margin
June 30, 2025	\$ 15.7	7.8 %
Inflation and investment spending in excess of pricing and productivity	(2.5)	(1.1)%

Acquisition / integration / restructuring expenses	(6.1)	(1.3)%
June 30, 2026	\$ 23.1	5.1 %

The decrease in Segment operating income and Segment operating margin was driven by the unfavorable impact from inflation and investment spending in excess of pricing and productivity improvements, the unfavorable impact from volume/product mix and higher acquisition, integration and restructuring expenses. These decreases were partially offset by the favorable impact from recent acquisitions/divestitures and the favorable impact from foreign currency exchange rate movements.

Liquidity and Capital Resources

Liquidity Outlook, Sources and Uses

Our primary source of liquidity is cash provided by operating activities. Cash provided by operating activities is used to invest in new product development and fund capital expenditures and working capital requirements. Our ability to generate cash from operating activities, our unused borrowing capacity under an unsecured revolving credit facility (the “Revolving Facility”) and our access to the capital and credit markets enable us to fund these capital needs, execute our long-term growth strategies and return value to our shareholders. Further, our business operates with strong operating cash flows, low leverage and low capital intensity, providing financial flexibility.

Our short-term financing needs primarily consist of working capital requirements, restructuring initiatives, capital spending, dividend payments and principal and interest payments on our long-term debt. Long-term financing needs depend largely on potential growth opportunities, including potential acquisitions, repayment or refinancing of our long-term obligations and repurchases of our ordinary shares. Of our total outstanding indebtedness as of June 30, 2026, approximately 88% incurs fixed-rate interest and is therefore not exposed to the risk of rising variable interest rates.

Based upon our operations, existing cash balances and unused borrowing capacity under the Revolving Facility, as of June 30, 2026, we expect our cash flows from operations will be sufficient to maintain a sound financial position and liquidity and to meet our current financing needs for at least the next 12 months. Further, we do not anticipate any covenant compliance challenges with any of our outstanding indebtedness for at least the next 12 months.

The following table reflects the major categories of cash flows for the six months ended June 30. For additional details, see the Condensed and Consolidated Statements of Cash Flows in the Condensed and Consolidated Financial Statements.

<i>In millions</i>	2026	2025
Net cash provided by operating activities	\$ 299.7	\$ 314.2
Net cash used in investing activities	(113.2)	(82.6)
Net cash used in financing activities	(217.9)	(99.2)

Operating Activities: Net cash provided by operating activities during the six months ended June 30, 2026, decreased \$14.5 million compared to the same period in 2025, primarily due to increases in working capital partially offset by higher net earnings.

Investing Activities: Net cash used in investing activities during the six months ended June 30, 2026, increased \$30.6 million compared to the same period in 2025, primarily due to higher cash used for acquisitions.

Financing Activities: Net cash used in financing activities during the six months ended June 30, 2026, increased \$118.7 million compared to the same period in 2025, primarily due to higher repurchases of ordinary shares and lower net proceeds from debt.

Capitalization

Long-term debt and other borrowings consisted of the following:

<i>In millions</i>	June 30, 2026	December 31, 2025

Less current portion of long-term debt	0.2	0.2
Total long-term debt	\$ 2,030.9	\$ 1,979.9

The Revolving Facility matures on May 20, 2030 and provides aggregate commitments of up to \$1.0 billion, which includes up to \$100.0 million for the issuance of letters of credit. As of June 30, 2026, we had outstanding borrowings of \$240.6 million and letters of credit of \$25.3 million.

Borrowings under the Revolving Facility are due upon its maturity but may be repaid at any time without premium or penalty, and amounts repaid may be reborrowed. We pay certain fees with respect to the Revolving Facility, including an unused commitment fee on the undrawn portion of between 0.080% and 0.200% per year, depending on our credit ratings, as well as certain other fees.

Outstanding borrowings under the Revolving Facility accrue interest, at our option, equal to either: (i) a Secured Overnight Financing Rate (“SOFR”) plus an applicable margin or (ii) a base rate plus the applicable margin. The applicable margin ranges from 0.875% to 1.375% depending on our credit ratings. At June 30, 2026, our outstanding borrowings under the Revolving Facility accrued interest at SOFR plus a margin of 1.125%, resulting in an interest rate of 4.753%. The Revolving Facility also contains negative and affirmative covenants and events of default that, among other things, limit or restrict our ability to enter into certain transactions. In addition, the Revolving Facility requires us to comply with a maximum leverage ratio as defined in the credit agreement. As of June 30, 2026, we were in compliance with all applicable covenants under the credit agreement.

As of June 30, 2026, we also have \$400.0 million outstanding of 3.550% Senior Notes due 2027 (the “3.550% Senior Notes”), \$600.0 million outstanding of 5.411% Senior Notes due 2032 (the “5.411% Senior Notes”), \$400.0 million outstanding of 5.600% Senior Notes due 2034 (the “5.600% Senior Notes”), and \$400.0 million outstanding of 3.500% Senior Notes due 2029 (the “3.500% Senior Notes,” and all four senior notes collectively, the “Senior Notes”). The 3.550% Senior Notes and 3.500% Senior Notes both require semi-annual interest payments on April 1 and October 1 of each year and mature on October 1, 2027 and October 1, 2029, respectively. The 5.411% Senior Notes require semi-annual interest payments on January 1 and July 1 of each year and mature on July 1, 2032. The 5.600% Senior Notes require semi-annual interest payments on May 29 and November 29 of each year and mature on May 29, 2034.

Historically, the majority of our earnings were considered to be permanently reinvested in jurisdictions where we have made, and intend to continue to make, substantial investments to support the ongoing development and growth of our global operations. At June 30, 2026, we analyzed our working capital requirements and the potential tax liabilities that would be incurred if certain subsidiaries made distributions and concluded that no material changes to our historic permanent reinvestment assertions are required.

Defined Benefit Plans

Our investment objective in managing defined benefit plan assets is to ensure that all present and future benefit obligations are met as they come due. We seek to achieve this goal while trying to mitigate volatility in plan funded status, contributions and expense by better matching the characteristics of the plan assets to that of the plan liabilities. Global asset allocation decisions are based on a dynamic approach whereby a plan's allocation to fixed income assets increases as the funded status increases. We monitor plan funded status, asset allocation and the impact of market conditions on our defined benefit plans regularly in addition to investment manager performance. For further details on pension plan activity, see Note 10 to the Condensed and Consolidated Financial Statements.

For a further discussion of Liquidity and Capital Resources, refer to Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," contained in our Annual Report on Form 10-K for the year ended December 31, 2025.

Guarantor Financial Information

Allegion US Hold Co is or was, as applicable, the issuer of the 3.550% Senior Notes, 5.411% Senior Notes, and 5.600% Senior Notes and is the guarantor of the 3.500% Senior Notes. Allegion plc (the "Parent") is or was, as applicable, the issuer of the 3.500% Senior Notes and is or was, as applicable, the guarantor of the 3.550% Senior Notes, 5.411% Senior Notes, and 5.600% Senior Notes. Allegion US Hold Co is directly or indirectly 100% owned by the Parent and each of the guarantees of Allegion US Hold Co and the Parent is full and unconditional and joint and several.

The 3.550% Senior Notes, 5.411% Senior Notes, and 5.600% Senior Notes are or were, as applicable, senior unsecured obligations of Allegion US Hold Co and rank equally with all of Allegion US Hold Co's existing and future senior unsecured and unsubordinated indebtedness. The guarantee of the 3.550% Senior Notes, 5.411% Senior Notes, and 5.600% Senior Notes is or was, as applicable, the senior unsecured obligation of the Parent and ranks equally with all of the Parent's existing and future senior unsecured and unsubordinated indebtedness. The 3.500% Senior Notes are senior unsecured obligations of the Parent and rank equally with all of the Parent's existing and future senior unsecured and unsubordinated indebtedness. The guarantee of the 3.500% Senior Notes is the senior unsecured obligation of Allegion US Hold Co and ranks equally with all of Allegion US Hold Co's existing and future senior unsecured and unsubordinated indebtedness.

Each guarantee is effectively subordinated to any secured indebtedness of the guarantor to the extent of the value of the assets securing such indebtedness. The Senior Notes are structurally subordinated to indebtedness and other liabilities of the subsidiaries of the guarantor, none of which guarantee the notes. The obligations of the guarantor under its guarantee are limited as necessary to prevent such guarantee from constituting a fraudulent conveyance under applicable law and, therefore, are limited to the amount that the applicable guarantor could guarantee without such guarantee constituting a fraudulent conveyance; this limitation, however, may not be effective to prevent such guarantee from constituting a fraudulent conveyance. If the guarantee was rendered voidable, it could be subordinated by a court to all other indebtedness (including guarantees and other contingent liabilities) of the applicable guarantor, and, depending on the amount of such indebtedness, the applicable guarantor's liability on its guarantee could be reduced to zero. In such an event, the notes would be structurally subordinated to the indebtedness and other liabilities of the guarantor.

For further details, terms and conditions of the Senior Notes refer to the Company's Forms 8-K filed October 2, 2017, September 27, 2019, June 22, 2022, and May 29, 2024.

The following tables present the summarized financial information specified in Rule 1-02(bb)(1) of Regulation S-X for each issuer and guarantor. The summarized financial information has been prepared in accordance with Rule 13-01 of Regulation S-X.

Critical Accounting Policies

Management's Discussion and Analysis of Financial Condition and Results of Operations are based upon our Condensed and Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of financial statements in conformity with those accounting principles requires management to use judgments in making estimates and assumptions based on the relevant information available at the end of each period. These estimates and assumptions have a significant effect on reported amounts of assets and liabilities, revenue and expenses, as well as the disclosure of contingent assets and liabilities because they result primarily from the need to make estimates and assumptions on matters that are inherently uncertain. Actual results may differ from estimates.

Management believes there have been no significant changes during the six months ended June 30, 2026, to the items we disclosed as our critical accounting policies in "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2025.

Recent Accounting Pronouncements

Refer to Note 2 in our Condensed and Consolidated Financial Statements for a discussion of recently issued accounting pronouncements.

Forward-Looking Statements

Certain statements in this report, other than purely historical information, are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These forward-looking statements generally are identified by the words “believe,” “aim,” “projected,” “expect,” “anticipate,” “estimate,” “forecast,” “outlook,” “intend,” “scheduled,” “targets,” “strategy,” “future,” “opportunity,” “plan,” “may,” “should,” “will,” “would,” “will be,” “will continue,” “will likely result,” or the negative thereof or variations thereon or similar expressions generally intended to identify forward-looking statements.

These statements are based on currently available information and our current assumptions, expectations and projections about future events. While we believe that our assumptions, expectations and projections are reasonable in view of the currently available information, you are cautioned not to place undue reliance on our forward-looking statements. Forward-looking statements speak only as of the date they are made and are not guarantees of future performance. They are subject to future events, risks and uncertainties – many of which are beyond our control – as well as potentially inaccurate assumptions, that could cause actual results to differ materially from our expectations and projections including, among other things:

- ongoing macroeconomic challenges and continued economic instability;
- increased prices and inflation;
- volatility and uncertainty in the political, economic and regulatory environments in which we operate, including changes to trade agreements, sanctions, import and export regulations, custom duties and applicable tax regulations and interpretations, social and political unrest, instability, national and international conflict, terrorist acts and other geographical disputes and uncertainties;
- the strength and stability of the institutional, commercial and residential construction and remodeling markets;
- fluctuations in currency exchange rates;
- potential impairment of our goodwill, indefinite-lived intangible assets and/or our long-lived assets;
- instability in the U.S. and global capital and credit markets;
- our ability to make scheduled debt payments or to refinance our debt obligations;
- increased competition, including from technological developments;
- the development, commercialization and acceptance of new products and services;
- changes in customer and consumer preferences and our ability to maintain beneficial relationships with large customers;
- our products or solutions failing to meet certification and specification requirements, being defective, causing property damage, bodily harm or injury, or otherwise falling short of customers’ needs and expectations;
- our ability to identify and successfully complete and integrate acquisitions, including achieving their anticipated strategic and financial benefits;
- business opportunities that diverge from our core business;
- our ability to achieve the expected improvements or financial returns we expect from our strategic initiatives;
- our ability to effectively manage and implement restructuring initiatives or other organizational changes;
- global climate change or other unexpected events, including global health crises, such as epidemics, pandemics or similar widespread public health concerns;
- the proper functioning of our information technology and operational technology systems, including disruption or breaches of our information systems, such as cybersecurity attacks;
- the failure of our third-party vendors to provide effective support for many of the critical elements of our global information and operational technology infrastructure;
- our ability to recruit and retain a highly qualified and diverse workforce;
- disruptions in our global supply chain, including product manufacturing and logistical services provided by our supplier partners;
- our ability to effectively manage real or perceived issues related to product quality, safety, corporate social responsibility and other reputational matters;
- our ability to protect our brand reputation and trademarks;
- legal judgments, fines, penalties or settlements imposed against us or our assets as a result of legal proceedings, claims and disputes;
- claims of infringement of intellectual property rights by third parties;

- improper conduct by any of our employees, agents or business partners;
- changes to, or changes in interpretations of, current laws and regulations;
- uncertainty and inherent subjectivity related to transfer pricing regulations in the countries in which we operate;
- changes in tax rates, the adoption of new tax legislation or exposure to additional tax liabilities; and
- risks related to our incorporation in Ireland, including the possible effects on us of future legislation or adverse determinations by taxing authorities that could increase our tax burden.

These events, risks and uncertainties are described more fully in the “Risk Factors” section of our Annual Report on Form 10-K for the fiscal year ended December 31, 2025. There may also be other factors that have not been anticipated or that are not described in our periodic filings with the SEC, generally because we did not believe them to be significant at the time, which could cause actual results to differ materially from our projections and expectations. We do not undertake to update any forward-looking statements, except as required by applicable law.

Item 3 – Quantitative and Qualitative Disclosures about Market Risk

There have been no material changes in our exposure to market risk during the second quarter of 2026. For a discussion of the Company’s exposure to market risk, refer to Part II, Item 7A, “Quantitative and Qualitative Disclosures About Market Risk,” contained in the Company’s Annual Report on Form 10-K for the year ended December 31, 2025.

Item 4 – Controls and Procedures

The Company’s management, including its Chief Executive Officer and Chief Financial Officer, have conducted an evaluation of the effectiveness of disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act), as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded as of June 30, 2026, that the disclosure controls and procedures are effective in ensuring that all material information required to be filed in this Quarterly Report on Form 10-Q has been recorded, processed, summarized and reported when required and the information is accumulated and communicated to the Company’s management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

There have not been any changes in the Company’s internal control over financial reporting that occurred during the second quarter of 2026 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1 – Legal Proceedings

In the normal course of business, we are involved in a variety of lawsuits, claims and legal proceedings, including commercial and contract disputes, labor and employment matters, product liability claims, environmental liabilities, antitrust and trade regulation matters, intellectual property disputes and tax-related matters. In our opinion, pending legal matters are not expected to have a material adverse impact on our results of operations, financial condition, liquidity or cash flows.

Item 1A – Risk Factors

There have been no material changes to our risk factors contained in our Annual Report on Form 10-K for the year ended December 31, 2025. For a further discussion of our Risk Factors, refer to the “Risk Factors” discussion contained in our Annual Report on Form 10-K for the year ended December 31, 2025.

Item 2 – Unregistered Sales of Equity Securities, Use of Proceeds and Issuer Purchases of Equity Securities

Issuer Purchases of Equity Securities

Period	Total number of shares purchased (000s)	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs (000s)	Approximate dollar value of shares that may yet be purchased under the plans or programs (000s) ^(a)

Total	<u>909</u>	<u>\$ 132.06</u>	<u>909</u>	<u>\$ 379,993</u>

(a) On April 15, 2026, the Board replenished the funds available for the repurchase of the Company’s ordinary shares under its existing share repurchase program and, as a result, authorized the repurchase of a total amount of up to \$500.0 million of the Company’s ordinary shares under the program. The share repurchase program does not have a prescribed expiration date. Share repurchases may be made from time-to-time in open market, accelerated stock repurchase or privately negotiated transactions, including pursuant to one or more Rule 10b5-1 trading plans. The timing and manner of any share repurchase and the actual number of ordinary shares repurchased will be determined at the discretion of management based on a variety of factors, including, among others, the Company’s stock price, corporate and regulatory requirements, and other general market and economic conditions.

Item 5 – Other Information

During the three months ended June 30, 2026, no director or officer of the Company adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in item 408(a) of Regulation S-K.
